

Math Challenges: Skittles Activity

How many Skittles do you think are in your bag?

Estimate the amount before opening your bag of Skittles?

Open your bag of Skittles and do the following:

1. Count your Skittles and record the actual amount that are in your bag.
2. Sort your Skittles by color.
3. Create a pattern with your Skittles.
4. Graph the amount of Skittles in your bag by color.

Step 1:

Count your Skittles and record the actual amount.

Step 2:

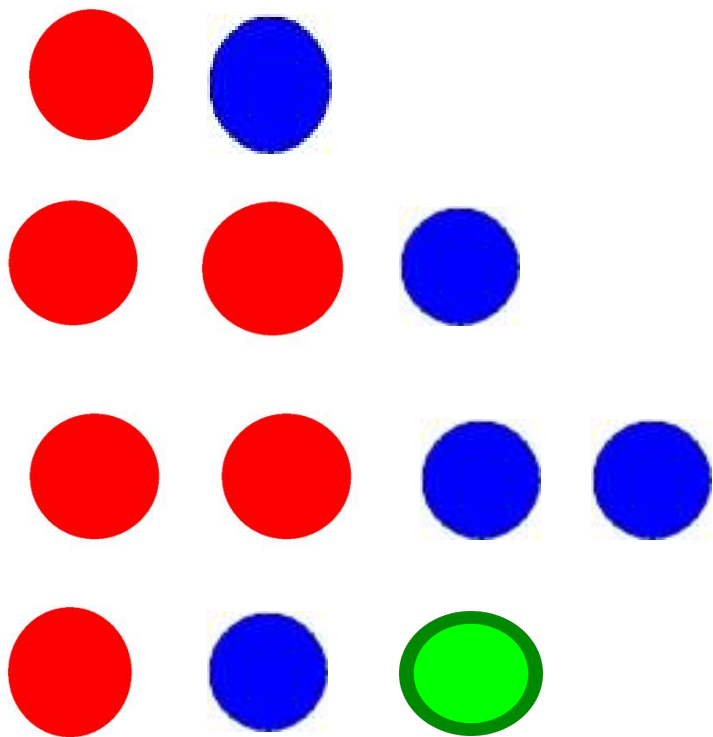

Sort your Skittles by color.

Step 3:

Create a pattern with your Skittles. You may create an AB, AAB, AABB, or an ABC.

For example:

Step 4:

Create a bar graph that represents your data.
